

Cambridge High School is the newest school in FCS drawing its students from Alpharetta and Milton High School. The wetlands running through the school's campus required the creation of the "BRIDGE" which is as symbolic as it is physical. Just as the bridge unites our sprawling campus, it also represents the bridging of not only our students but also our cities of Alpharetta and Milton.

Cambridge High School...educating, challenging and inspiring all students to reach their full potential and achieve college and career readiness

2013
